Why do you think that trucks should be required to have side guards?

It will save lives

My son Micheal was killed 11/18/14 in a side under ride crash in Memphis, TN. The truck made an illegal u turn

Because my best friend died from an impact with the side of a truck making an illegal U Turn on a hill.
Our friends son was killed in a horrific accident with an 18 wheeler. His car ran underneath of the truck.

Our very good friends' 39 year old son was killed in a truck accident in which this technology would have absol

Had a friend that son was killed due this type of accident.

Save lives
Two of my
nieces lost
their lives
at age 17
and 13

Because Family Lives Matter!

To save more lives.

It is important to me because saving lives is the most important thing we can do for others.

Because people's lives will be saved.

This is really common sense. Not only will this save lives, it will also likely improve fuel efficiency for the trucks.
I personally know individuals who have lost their lives or the lives of loved ones due the lack of rear and side gu
My friends daughters were killed in a semi trailer crash

This could happen to anyone. It could happen to your family members. It is important that the trucks on the hig

To prevent others from suffering needlessly by changing the ludicrous laws.

If side guards had been mandatory my husbands best friend would still be alive.

To save lives and minimize serious injuries from highway accidents involving truck underrides.

To prevent preventable deathsw

Two people I loved would have hopefully survived that fatal car wreck..

Safety should be common sense and important to everyone. Especially when money thrown at congress keeps
If there is a fix to save lives we need to implement it. Why is the US always last when it comes to regulations th
Safety saves lives. It's negligent NOT to do this!!!

My brother was killed by going under the side of a truck

It will save lives

Safety of human lives should matter more than the money it will take to install the guards. Senator Thune, how

Lives will be saved

An easy fix that can save lives, and has been a standard in Europe for decades.

If it is in our power to have a solution but not to fix it shame on everyone!

It's important to everyone because it saves lives.

There continue to be too many unnecessary deaths caused by this, and it is a correctable problem.

Trucks are the most dangerous vehicles on the road, they out weigh most cars 8 to 1.

I'm a driver and I have no desire to be maimed or decapitated. The highways are full of trucks. Sometimes traf

Why not provide safety against such dangerous accidents?

It saves lives!!!!

These would prevent fatalities, an estimated 200/year. This is a known and preventable tragedy. Is the governn

Because I care about the safety of my family and others who regularly drive on roads shared with big trucks.

Seems to me to be common sense, the larger vehicle will always win, protection needed.

These types of death are preventable!! Big Trucking needs to stop getting in the way of common sense safety.

People like my nephew needed have died if the trucks had side guards. Let us follow the lead and wisdom of Eu
I want to keep my family safe!

Other countries have already implemented this change. Furthermore, you see SOME trailers on the road that
After watching the NBC Today Show and seeing that Europe has had side guards on their semi trucks since the
My boyfriend, Michael Higginbotham, was killed in a side underride crash on November 18, 2014 in Memphis, "

Lets protect are people by adding safety features that can save lifes

It is stupid that cash is the only reason that these guards are not in place. A few pennies in higher prices are w
This is the right thing to do!

Automobile safety is a priority. What good are safety measures in a car if they are rendered moot by an under:
Requiring side curtains will save lives and save fuel due to streamlining. The argument that it is not technically j

The fix is easy and the cost negligible in comparison to good tires and maintenance of braking systems. Side cur

Why wouldn't it be.

We once had a couple of large trucks on the road. As a driver of that truck I would have gladly paid for the guard rails. Safety first. Always.

A family friend lost their son from a semi and I would like to prevent these situations for everyone.

To prevent unnecessary deaths.

No one should have to suffer the loss of a loved one because industries want to save money.

We need to do whatever is necessary to save lives.

My brother in law was killed last year when his SUV went under a tractor trailer.

Please do what's right and stop pandering to corporations whose only interest is saving a couple of bucks and not lives.

We have had multiple close calls with these big rigs that drive like they're the only ones on the road. My sister in law was almost killed by one.

Because everyone's life matters. Stop the donations to politicians and use that money to pay to install side guard rails.

For safety reasons

As a disabled veteran of 3 foreign wars, I find it troubling that something so simple would have saved my 24 ye:

We need to make our roads safer, I have two children and don't want to lose them to something preventable.

Please make large trucks more safe for others who must share the road with them by mandating side guards.

I can see a great benefit to saving lives with side guards.

it would save lives

Why do you think that trucks should be required to have side guards?

!!!!!!!

90 road deaths every day in the United States is unacceptable. We the people, and all stakeholders, can use common sense to

A close friend passed away from an accident vs a big rig

A family friend lost their son from a semi and I would like to prevent these situations for everyone.

A small cost for the truck would save hundreds of lives and reduce injury. We boast that America is great and so forward yet c

A truck pulled out across a highway And my car ended up underneath it in 2004. I am luck to be alive! The impact knocked m

them.

Any future cases should give automatic penalties to the companies that do not have them!

Absolutely! !!!

Accidents happen.

After watching the NBC Today Show and seeing that Europe has had side guards on their semi trucks since the late eighties, I

All of us are at risk; if this is mandatory in Europe, why not here in the USA?

Always feared of having an accident with a tractor trailer. I will always remember when Jane Mansfield died tragically and eve

An easy fix that can save lives, and has been a standard in Europe for decades.

Anything and everything should be done to protect motorists.

apio a causa .

Aren't preventable deaths obviously important?

As a disabled veteran of 3 foreign wars, I find it troubling that something so simple would have saved my 24 year old brothers

Automobile safety is a priority. What good are safety measures in a car if they are rendered moot by an underside collision?

Because everyone's life matters. Stop the donations to politicians and use that money to pay to install side guards.

Because Family Lives Matter!

Because i believe that some lives can be saved.

Because I care about the safety of my family and others who regularly drive on roads shared with big trucks.

Because it could save lives. Plain and simple.

Because it is an inherent danger for too many vehicles

Because it will save lives! I know the Karth family, and I know the heartbreak and devastation they have endured in losing the

Because it would prevent small vehicles from going underneath and being crushed. This is such a no-brainer.

Because it would save lives...legislators' opinions would change if they had a loved one killed in an accident because a truck di

Because my best friend died from an impact with the side of a truck making an illegal U Turn on a hill.

Because people's lives will be saved.

Because they should.they make us wear seat belts and no text and drink and drive. So sidegaurds is a logical step towards roa

Cars stand no chance with semis. If there is a way to lessen the number of fatalities when it comes to car versus semi accident

Companies think in terms of dollars while individuals think in terms of lives. Even company execs think in terms of lives. But or

Deadly side under-ride crashes are preventable. Mandate side guards!

Don't you think it's long overdue? Don't you think it's worth saving lives?

DRIVE SAFE!

Driving on the Interstates alongside a truck and seeing the gaping hole of the truck next to my car scares the hell out of me.

Enact NESARA now!

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

Even China mandates these. Are we going to let ourselves fall behind?

Everyone, listen, this is a simple fix; it works and yes, it costs money to do it but I am asked (forced by law) to make my busine

For gas economy, cars will continue to get smaller, and must be protected from big vehicles.

For safety reasons

for safety sake please mandate these guards

For the obvious safety reasons.

Greetings from Human Rights Sanrakshan Sansthaa,

Had a friend that son was killed due this type of accident.

Having driven the interstate between Chicago and Detroit for many a year where truck traffic is very intense, it is frightening t

Highway safety and security of vehicle is paramount .

<http://www.thepetitionsite.com/nl/takeaction/251/762/472/>

Human lives should come before corporate profits and political campaign contributions. Nothing will bring back the people w

I am one of the lucky ones.

In a Buffalo suburb, the semi in front of me rotated 90 degrees and was headed north on an east-west Interstate. I barely had the car (I was told later) left the ground on impact. Although it happened back in the late 1970s, I often recall that frightening I can see a great benefit to saving lives with side guards.

I didn't even know the side guards exist but since they do it should be illegal for trucks be on the road without them!

I don't want to see any more people die when this danger can be prevented

I drive a long stretch of highway in MD every day with plenty of cars and rigs driving unsafely. Accidents are accidental, I don't

I have a friend who lost her husband in this type of accident. She and the new born baby barely survived.

I have been trained in motor vehicle safety by my government employers, as well as having been trained & licensed as an auto

I have seen these accidents before, one just occurred recently in dfw. I am an engineer and it looks like simple fix to save lives

I have two degrees in Driver and Traffic Safety and taught Driver Education for 30 years. I don't care if it "would" or "could" s

I have witnessed the pain it caused a family that lost their children.

I know people who have been killed in this type of accident.

I lost my beautiful daughter to a side underride in 2004 - totally preventable with trailer side guard protection.

I personally know individuals who have lost their lives or the lives of loved ones due the lack of rear and side guards on tractor

I saw the report that Ronan Farrow did on Today Show and was outraged that the side guards have not been mandated! Mon

I support this petition as a physician and public health advocate.

I travel monthly on a highway that is heavily trafficked by semi trucks and I've seen the dangers, particularly during our monso

I want to keep my family safe!

I was in a car accident with a 18 wheeler back in January of 1997. I survived the crash, but my car was a total loss!

I was utterly stunned to learn the US have no side bars, they have been mandatory in the UK for years & to sight cost as a rea

If deaths can be prevented, why aren't you acting?

If it is in our power to have a solution but not to fix it shame on everyone!

if it really saves lives it is a good safety measure. ...both pedestrians and drivers need to be more careful though.

If side guards had been mandatory my husbands best friend would still be alive.

If there is a fix to save lives we need to implement it. Why is the US always last when it comes to regulations that protect it cit

If they could save even one life they are needed. A very good friend lost his life this way. There is no question that these shou

If this can stop deaths, why not ?

If we can save one life I believe it's worth a try. As a passenger of said car, I have no control over what's happening behind the

I'm a driver and I have no desire to be maimed or decapitated. The highways are full of trucks. Sometimes traffic is bad, some

I'm one of the countless survivors who has lost a deeply loved one to an utterly preventable crash--preventable, that is, had the world, or just blow it up, to ensure there will never be an alternative to profits over humanity.

There are ever so many more people in this country sick to death of "rules and taxes are for little people." We're also sick of the top. All that dumping comes in the form of something just like side under-ride guards. The industry has spent a lot of money to get rid of them with all of you. And you do wonderful tricks for their treats: you've all ensured that side guards STILL aren't on trucks, and have

People die when a segment of the population with very outsized influence in govt, and overwhelmingly devastating impacts on

We're all aware that you're actively ungoverning our nation. We know the constant frustration of getting a back turned on us

We're not done fighting. We're not giving up.

And the safety community will be everywhere the trucking and trucking industries are--to fight them--and you--every step of the way

In memory of Chuck Novak, 22, and Teri Weaver, 23, killed by a sleeping truck driver doing 70 mph. Three other human beings and orphans have been created since then.

We want to see a complete change from you--dare I use the dirty word "radical?"

Isn't this a self evident next step ?

It can save lives by passenger in vehicle not hitting head on

It could save the life of my loved ones and friends!

It is important because it will save lives. My family puts a lot of miles on the road and we want it to be safer for us as well as for others

You should do it because it is morally the right thing to do. You can because the technology is available.

It is important to me because saving lives is the most important thing we can do for others.

It is known these side guards save lives.....so use them!! Life is precious and there are a lot of trucks out there.

It is sad that more money is spent to fight this than it would cost to just do the right thing.

It is salient that this protection will save lives. It is also salient that the trucking industry contributes millions to politicians so they can keep the status quo

It is stupid that cash is the only reason that these guards are not in place. A few pennies in higher prices are worth a life. Congress should care

It makes sense and would create jobs.

It saves lives!!!!

It seems to be a simple fix to save lives; Europe already has. Why would we not do; clearly works. Feels like another example of how

it should be important to everyone, we are all on the highways

It will save lives

It will save lives

It will save lives !

it will stop deaths that are avoidable. transport companies can afford this! if not goods can go by rail!

It would not harm vehicles to have all the safety measures possible. And it will save LIFE! :-)

it would save lives

It's a no-brainer common sense issue. More lives would have been saved and will be saved if all trucks are required to have the technology

It's a safety issue. People's lives are worth more than any issue the trucking industry raises.

It's a simple change that can help prevent unnecessary death and injury.

it's a simple fix that can save lives

It's a simple fix to save lives that are lost unnecessarily. The justification to not do it due to costs is the same excuse that Ford used

It's another small but vital change needed to save lives.

IT'S CALLED " INSURANCE FRAUD " THEY THINK THEIR GOING TO GET A " NEW VEHICLE FROM THE TRUCKING COMPANY " !

It's important because I have kids who drive on highways and tractor trailers are very reckless.They make me nervous.

It's important to everyone because it saves lives.

It's important to save innocent lives. We're willing to pay a little bit more for the cost.

It's simple, inexpensive, and saves lives. Duh!

It's time for NHTSA to mandate side guards and for the trucking industry to start installing them. Take action! ..Pres. Trump, S

Lets protect are people by adding safety features that can save lifes

Let's save lives and add side guards to trucks.

Life matters to me. What a novel idea for leaders of the trucking industry and corporations. Heartless bastards

life.....should we say anymore

Live can be saved

Lives are at stake!

Lives will be saved

Makes sense. So make it a law.

Maybe we should just get the idiots driving cars to learn how to drive and pay attention.

More cars that can fit under trucks yield more probability of accidents - possible fatal.

Mr Trump, do at least one decent thing here. You won't make any money but you won't lose any either. A lot of these trucker

My 5 year old son was killed in a trucking accident

My boyfriend, Michael Higginbotham, was killed in a side underride crash on November 18, 2014 in Memphis, TN. He would b

My brother in law died in an accident like this. It's personal.

My brother in law was killed last year when his SUV went under a tractor trailer.

My brother was killed by going under the side of a truck

My dad, Richard Yancoskie, died January 28th 2015 in an underride accident, although the driver was ultimately at fault side g

My daughter which is 4 years old & I had a semi pull out in front of us from off the side of the shoulder on a roadway to do a "

My friend died from this exact accident

My friend died on this type of accident

My friends daughters were killed in a semi trailer crash

My gut feeling is that the transportation industry has spent more on lobbies than trying to address this problem.

My husband is in the trucking industry, driving for a living. I would hate to see his life suffer or our lives suffer because of this

My husband was killed in 2015 by a trucker who crossed a median and hit him head on, but adequate side & back guards on t

My question to you is why would you not vote to mandate side guard rails on the underside of trucks when they have been sh

My son Jasen was killed in an underride Crash on 14 Oct 1993.

My son Micheal was killed 11/18/14 in a side under ride crash in Memphis, TN. The truck made an illegal u turn at the bottom

My sons are new drivers and I lose sleep over worrying about their safety while driving on our highways!!

My whole family drive as do most I fear for their lives, unfortunately I am not a millionaire and so cannot buy a congressman s

No brainer! A simple way to save lives.

No more precious lives should be lost to something that is so preventable

No one should have to suffer the loss of a loved one because industries want to save money.

NOWWWW!!!

One of my co-workers was killed by tractor trailer because he was pinned underneath the trailer

One would think this would be common sense. Ohhhhh yeah, we're talking about Republicans. Let me put this in language yo

Other countries have already implemented this change. Furthermore, you see SOME trailers on the road that already have th

Our friends son was killed in a horrific acident with an 18 wheeler. His car ran underneath of the truck.

Our very good friends' 39 year old son was killed in a truck accident in which this technology would have absolutely saved his

Overdue

People are injured and their cars are severely damaged by going under the sides or back of trucks.

People like my nephew needed have died if the trucks had side guards. Let us follow the lead and wisdom of Europe on this

Please do what's right and stop pandering to corporations whose only interest is saving a couple of bucks and not concerned a

Please make large trucks more safe for others who must share the road with them by mandating side guards.

Prevent deaths.

Preventing deaths through available and practical means should be a priority for any lawmaker and government agency. With

Racing any life is important

Requiring side curtains will save lives and save fuel due to streamlining. The argument that it is not technically possible is a red herring.

Safety First!

Safety first. Always.

Safety for my family

Safety of human lives should matter more than the money it will take to install the guards. Senator Thune, however, doesn't see it that way.

Safety of the public. Every life matters. Make the change, make a difference.

Safety saves lives. It's negligent NOT to do this!!!

Safety should be common sense and important to everyone. Especially when money thrown at congress keeps good work from being done.

Safety. Cost CANNOT be an impediment when it comes to preventing traffic deaths.

Save All Life!!!

Save lives

Two of my nieces lost their lives at age 17 and 13

Save lives from going under trucks.. Europe has already learned this lesson... what is your excuse

US government people? Use your \$\$\$ and do it now!

Seems like an easy fix to guard against injury.

Seems to me to be common sense, the larger vehicle will always win, protection needed.

Senator Thune needs to get his hand out of the Trucking lobbies pockets, and do his damned job !

Side and rear guards, please. My cousins were killed this way on their honeymoon having just left their wedding ceremony.

Side guards could possibly save lives.

Side Guards NOW! Side Guards NOW! Side Guards NOW!

Side guards save lives

Side impact guards added to trucks WILL SAVE MANY LIVES!!! This is very similar to the accident my husband, Robert, and I had.

Side-underride crashes are a completely preventable problem that kills 200 Americans every year. It is inexcusable that congress has not passed a simple safety feature that will save lives

So simple a thing to save lives!

So that lives are saved

So we have less possible fatal crashes in underride accidents.

SOUNDS LIKE A GOOD IDEA. SPEND SOME \$\$\$ AND SAVE SOME LIVES.

That's a stupid question when hundreds and over the years thousands of Americans and visitors are killed when there has been a simple safety feature that will save lives. Shame on the lobbyists and gov't for taking bribes over lives.

The fix is easy and the cost negligible in comparison to good tires and maintenance of braking systems. Side curtains can be placed on the side of the truck.

The fix is trivially easy to implement, and the added cost if required would be minuscule. A simple equation: cost = way less than lives saved.

The many deaths that occur due to underride accidents.

The method needed to avoid these kind of calamities is relatively simple and should not be a huge burden on the trucking industry.

The result of crashing into the side of an unguarded truck can be devastating because none of the car's safety devices are designed to protect against this type of impact.

The Side Guards can help save lives. The truck side underride crashes are horrific. Whatever we can do to prevent these types of accidents is worth the cost.

Thank you.

The tragic Tesla fatal crash on May 7, 2016, highlights a real and present highway danger -- cars sliding underneath large trucks.

The use of side Guards are a safety issue that the Federal Government should order to the laws about tractors and trailers --A

The value of the lives which will be saved is far more than the cost of side guards - even if one only looks exclusively at the economic cost.

There continue to be too many unnecessary deaths caused by this, and it is a correctable problem.

There have been enough deaths to warrant action.

These are already law in the UK and the law even extends to protecting people from head on impacts where the body sticks out of the car.

These are senseless deaths being sacrificed so the trucking industry can make more money ie: heavier trailers = lighter loads, faster trips.

These types of death are preventable!! Big Trucking needs to stop getting in the way of common sense safety.

These would prevent fatalities, an estimated 200/year. This is a known and preventable tragedy. Is the government here to protect lives?

They are required in Europe....makes sense

They have these in Europe and they are a proven safety measure. It's a no brainer

They should be required to have side rails to save lives.

This could happen to anyone. It could happen to your family members. It is important that the trucks on the highway are equi

this happened to my friend-the only thing that saved him was the hood got stuck otherwise he would have been decapitated

This is a practical solution that is guaranteed to save lives. Let's take highway safety seriously and do the right thing here.

This is a simple solution that can save thousands of lives!!!

This is a technology that could save lives and should be mandated.

This is action will save hundreds of lives.

This is an easy fix and should be done immediately to save lives!

This is important this could save one of your love ones life or even your own life.

This is just inexcusable. Human safety MUST always come first, no matter what, on our roads/bridges!

This is really common sense. Not only will this save lives, it will also likely improve fuel efficiency for the trucks.

This is the right thing to do!

This may have saved a friends life.

This must be enacted in order to save lives!!

THIS SENIOR CITIZEN SAW A WOMAN GET HER HEAD CUT OFF - IT ROLLED DOWN THE STREET IN FRONT OF ALL OF OUR HORROR
SEEMS LIKE A RELATIVELY EASY FIX TO ME!

This should be a no brainer. There can be no cost equivalent to saving the life of even a single person.

This sounds like a winner so why isn't it happening? Please do.

This would help save many lives and reduce the trauma experienced both by the truck driver and car passengers who survive

Three strong stachions per side supporting a reinforced fuel saving fairing would suffice,

To help prevent tragic deaths! Truckers sometimes fall asleep after being overworked and any safety precaution could help so

To prevent injury or death.

To prevent others from suffering needlessly by changing the ludicrous laws.

To prevent preventable deathsw

To prevent unnecessary deaths.

To save 200 or more lives a year!

To save lives

To save lives and make our highways safer

To save lives and minimize serious injuries from highway accidents involving truck underrides.

To save lives and reduce severity of injuries. Side guards would add to the structural strength and lower center of gravity of the
to save lives!!!!

To save lives.

To SAVE LIVES.

To save more lives.

Too many lives are being lost needlessly to an apathetic industry that is willing to spend more money fighting change than ma

Too many lives lost, far outweighing the costs.

Tragedy that can be prevented should be. It is not difficult or expensive.

Trucks are the most dangerous vehicles on the road, they out weigh most cars 8 to 1.

Trucks are vital but dangerous. Anything that can be done to decrease risk and ensure safety of others is an ethical responsib

TRUCKS HAVE REAR GUARDS, WHY NOT SIDE GUARDS . . . for the same defense!

Trucks must be mandated to have side guards to protect other motorists and pedestrians from deadly underride crashes and

Trucks need safety under ride barriers to prevent senseless deaths. Families should consider our highways to be safe but they

Two of my friends died like this, twenty years ago. Still no side guards on any trucks I have seen on the interestates. This shou

Two people I loved would have hopefully survived that fatal car wreck..

Vital preventative measure to Save lives

VORFFs

We have had multiple close calls with these big rigs that drive like they're the only ones on the road. My sister miraculously survived.

We have them for the rear--why not the sides?!

We need to do whatever is necessary to save lives.

We need to make our roads safer, I have two children and don't want to lose them to something preventable. Take action now.

We need to minimize highway deaths just like we did by enacting seat belt laws

We once had a couple of large trucks on the road. As a driver of that truck I would have gladly paid for the guards than risk the lives of others.

We support you..but will you support us? Since 1975 Over 24,510 and counting....and since 1988 over 1,000,000 injured by pedestrians.

When I was 12 a school mate was killed...decapitated...along with her very pregnant mother and 8 year old sister, in an accident.

Why not provide safety against such dangerous accidents?

Why wouldn't it be.

Working in insurance litigation I see a lot of these cases. If there is a way to keep people from getting killed let's do it. There's a lot of money involved.

Just putting side lighting/illumination on tractor/trailers has helped immensely. They are big heavy trucks and trailers.

Yes. Save lives

requirement in place to save lives why can't the USA? It's all about money going into the wrong pockets. This is a n

enefit.

Why do you think that trucks should be required to have side guards?

Because it could save lives. Plain and simple.

Greetings from Human Rights Sanrakshan Sansthaa,

The Human Rights Sanrakshan Sansthaa is a committed and dedicated group, We strive to work towards ensuring the Human Rights of common man. We are also proud

Yogesh Sharma,

President,

Human Rights Sanrakshan Sansthaa

Don't you think it's long overdue? Don't you think it's worth saving lives?

For gas economy, cars will continue to get smaller, and must be protected from big vehicles.

I travel monthly on a highway that is heavily trafficked by semi trucks and I've seen the dangers, particularly during our monsoon and dust storms. This is a simple fix that

It's a no-brainer common sense issue. More lives would have been saved and will be saved if all trucks are required to have them. Let's get it done before another 200

Seems to me to be common sense, the larger vehicle will always win, protection needed.

To prevent unnecessary deaths.

!!!!!!!

A close friend passed away from an accident vs a big rig

As a disabled veteran of 3 foreign wars, I find it troubling that something so simple would have saved my 24 year old brother's life. What's worse is that it's only not passed

Because it would prevent small vehicles from going underneath and being crushed. This is such a no-brainer.

Enact NESARA now!

I have been trained in motor vehicle safety by my government employers, as well as having been trained & licensed as an auto mechanic in CA thru De Anza College. A

If they could save even one life they are needed. A very good friend lost his life this way. There is no question that these should be installed on all trucks.

It can save lives by passenger in vehicle not hitting head on

it's a simple fix that can save lives

My brother in law died in an accident like this. It's personal.

My brother in law was killed last year when his SUV went under a tractor trailer.

My friend died from this exact accident

My friend died on this type of accident

My gut feeling is that the transportation industry has spent more on lobbyists than trying to address this problem.

My sons are new drivers and I lose sleep over worrying about their safety while driving on our highways!!

One of my co-workers was killed by tractor trailer because he was pinned underneath the trailer

Overdue

People like my nephew needed have died if the trucks had side guards. Let us follow the lead and wisdom of Europe on this

Protecting any life is important

Save lives from going under trucks.. Europe has already learned this lesson... what is your excuse US government people? Use your \$\$\$ and do it now!

Side guards could possibly save lives.

SOUNDS LIKE A GOOD IDEA. SPEND SOME \$\$\$\$ ANS SAVE SOME LIVES.

The fix is trivially easy to implement, and the added cost if required would be minuscule. A simple equation: cost = way less than benefits of saving lives.

This may have saved a friends life.

THIS SENIOR CITIZEN SAW A WOMAN GET HER HEAD CUT OFF - IT ROLLED DOWN THE STREET IN FRONT OF ALL OF OUR HORRIFIED EYES.

SEEMS LIKE A RELATIVELY EASY FIX TO ME!

We need to minimize highway deaths just like we did by enacting seat belt laws

Having driven the interstate between Chicago and Detroit for many a year where truck traffic is very intense, it is frightening to be boxed in on all sides by tractor/trailer

If we can save one life I believe it's worth a try. As a passenger of said car, I have no control over what's happening behind the wheel(s), but I'd like to know there are

Maybe we should just get the idiots driving cars to learn how to drive and pay attention.

Safety of the public. Every life matters. Make the change, make a difference.

simple safety feature that will save lives

Tragedy that can be prevented should be. It is not difficult or expensive.

Driving on the Interstates alongside a truck and seeing the gaping hole of the truck next to my car scares the hell out of me.

It's a safety issue. People's lives are worth more than any issue the trucking industry raises.

Why wouldn't it be.

Cars stand no chance with semis. If there is a way to lessen the number of fatalities when it comes to car versus semi accidents then it's obvious we should act.

I have a friend who lost her husband in this type of accident. She and the new born baby barely survived.

I lost my beautiful daughter to a side underride in 2004 - totally preventable with trailer side guard protection.

If deaths can be prevented, why aren't you acting?

It is salient that this protection will save lives. It is also salient that the trucking industry contributes millions to politicians so they can save money on truck modifications

It would not harm vehicles to have all the safety measures possible. And it will save LIFE! :-)

life.....should we say anymore

My son Jasen was killed in an underride Crash on 14 Oct 1993.

Safety should be common sense and important to everyone. Especially when money thrown at congress keeps good work from being done.

These are senseless deaths being sacrificed so the trucking industry can make more money ie: heavier trailers = lighter loads, it's all about the dollar, they could care less

This must be enacted in order to save lives!!

This should be a no brainer. There can be no cost equivalent to saving the life of even a single person.

We have them for the rear--why not the sides?!

Working in insurance litigation I see a lot of these cases. If there is a way to keep people getting killed let's do it. There's a lot more seriously injured.

Just putting side lighting/illumination on tractor/trailers has helped immensely. They are big heavy trucks and trailers.

After watching the NBC Today Show and seeing that Europe has had side guards on their semi trucks since the late eighties, I am outraged the USA has not made them

Automobile safety is a priority. What good are safety measures in a car if they are rendered moot by an underside collision? Europeans demonstrate that the added

Lives will be saved

To save lives

Trucks are vital but dangerous. Anything that can be done to decrease risk and ensure safety of others is an ethical responsibility. Trucking companies would engender

I have two degrees in Driver and Traffic Safety and taught Driver Education for 30 years. I don't care if it "would" or "could" save lives. Anything to help protect us is

My question to you is why would you not vote to mandate side guard rails on the underside of trucks when they have been shown to save lives? What is there to debate

Too many lives lost, far outweighing the costs.

An easy fix that can save lives, and has been a standard in Europe for decades.

Because it is an inherent danger for too many vehicles

For the obvious safety reasons.

I don't want to see any more people die when this danger can be prevented

It seems to be a simple fix to save lives; Europe already has. Why would we not do; clearly works. Feels like another example of the people we send to Washington, who

Preventing deaths through available and practical means should be a priority for any lawmaker and government agency. With so many deaths not able to be prevented

Safety First!

The many deaths that occur due to underride accidents.

This is a practical solution that is guaranteed to save lives. Let's take highway safety seriously and do the right thing here.

to save lives!!!!

it will stop deaths that are avoidable. transport companies can afford this! if not goods can go by rail!

One would think this would be common sense. Ohhhhh yeah, we're talking about Republicans. Let me put this in language you can follow: This bad. Please fix.

Safety saves lives. It's negligent NOT to do this!!!

Senator Thune needs to get his hand out of the Trucking lobbies pockets, and do his damned job !

This is the right thing to do!

A family friend lost their son from a semi and I would like to prevent these situations for everyone.

My daughter which is 4 years old & I had a semi pull out in front of us from off the side of the shoulder on a roadway to do a "U-turn" & the semi driver obviously didn't

NOWWWW!!!

Our very good friends' 39 year old son was killed in a truck accident in which this technology would have absolutely saved his life!!

I want to keep my family safe!

I'm a driver and I have no desire to be maimed or decapitated. The highways are full of trucks. Sometimes traffic is bad, sometimes weather is bad, sometimes drivers are

It's important to everyone because it saves lives.

Safety of human lives should matter more than the money it will take to install the guards. Senator Thune, however, doesn't seem to mind receiving \$\$\$ from the trucking industry

To save lives.

Too many lives are being lost needlessly to an apathetic industry that is willing to spend more money fighting change than making change.

All of us are at risk; if this is mandatory in Europe, why not here in the USA?

Because I care about the safety of my family and others who regularly drive on roads shared with big trucks.

To SAVE LIVES.

For safety reasons

Human lives should come before corporate profits and political campaign contributions. Nothing will bring back the people who've died in these horrific accidents or be
It will save lives

My 5 year old son was killed in a trucking accident

People are injured and their cars are severely damaged by going under the sides or back of trucks.

Safety first. Always.

This is an easy fix and should be done immediately to save lives!

We need to do whatever is necessary to save lives.

Mr Trump, do at least one decent thing here. You won't make any money but you won't lose any either. A lot of these truckers are white guys after all.

Prevent deaths.

Safety. Cost CANNOT be an impediment when it comes to preventing traffic deaths.

Side guards save lives

They have these in Europe and they are a proven safety measure. It's a no brainer

To prevent injury or death.

Because people's lives will be saved.

If this can stop deaths, why not ?

It is important because it will save lives. My family puts a lot of miles on the road and we want it to be safer for us as well as for others. I cannot imagine being a trucker

You should do it because it is morally the right thing to do. You can because the technology is available.

It is known these side guards save lives.....so use them!! Life is precious and there are a lot of trucks out there.

It's another small but vital change needed to save lives.

Save lives

Two of my nieces lost their lives at age 17 and 13

This is a technology that could save lives and should be mandated.

To save lives and make our highways safer

TRUCKS HAVE REAR GUARDS, WHY NOT SIDE GUARDS . . . for the same defense!

Trucks need safety under ride barriers to prevent senseless deaths. Families should consider our highways to be safe but they are not! We should do everything possible

We once had a couple of large trucks on the road. As a driver of that truck I would have gladly paid for the guards than risk the legal costs related to causing a death. I

DRIVE SAFE!

The fix is easy and the cost negligible in comparison to good tires and maintenance of braking systems. Side curtains can be placed in a way to decrease drag and subs

It's a simple fix to save lives that are lost unnecessarily. The justification to not do it due to costs is the same excuse that Ford used when their Pintos were exploding i

I can see a great benefit to saving lives with side guards.

it should be important to everyone, we are all on the highways

Please make large trucks more safe for others who must share the road with them by mandating side guards.

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

It is sad that more money is spent to fight this than it would cost to just do the right thing.

The result of crashing into the side of an unguarded truck can be devastating because none of the car's safety devices are designed to protect you from this kind of acc

this happened to my friend-the only thing that saved him was the hood got stuck otherwise he would have been decapitated

This is a simple solution that can save thousands of lives!!!

So that lives are saved

Always feared of having an accident with a tractor trailer. I will always remember when Jane Mansfield died tragically and every time I pass a truck I look for those rear

for safety sake please mandate these guards

I am one of the lucky ones.

In a Buffalo suburb, the semi in front of me rotated 90 degrees and was headed north on an east-west Interstate. I barely had time to think of my family, and Jayne M

the car (I was told later) left the ground on impact. Although it happened back in the late 1970s, I often recall that frightening moment when I pass a semi on a highway

I support this petition as a physician and public health advocate.

I'm one of the countless survivors who has lost a deeply loved one to an utterly preventable crash--preventable, that is, had the government not decided that rules, la

the world, or just blow it up, to ensure there will never be an alternative to profits over humanity.

There are ever so many more people inn this country sick to death of "rules and taxes are for little people." We're also sick of having risk, cost and consequences that

top. All that dumping comes in the form of something just like side under-ride guards. The industry has spent a lot of money to keep them away because they can use

with all of you. And you do wonderful tricks for their treats: you've all ensured that side guards STILL aren't on trucks, and have left individual citizens to do the work o

People die when a segment of the population with very outsized influence in govt, and overwhelmingly devastating impacts on other human beings, get away with mu

We're all aware that you're actively ungoverning our nation. We know the constant frustration of getting a back turned on us no matter what we're pleading for. You

We're not done fighting. We're not giving up.

And the safety community will be everywhere the trucking and trucking industries are--to fight them--and you--every step of the way.

In memory of Chuck Novak, 22, and Teri Weaver, 23, killed by a sleeping truck driver doing 70 mph. Three other human beings were killed along with them. And 11 pe

orphans have been created since then.

We want to see a complete change from you--dare I use the dirty word "radical?"

It could save the life of my loved ones and friends!

My whole family drive as do most I fear for their lives, unfortunately I am not a millionaire and so cannot buy a congressman so signing this is the best I can do!

Please do what's right and stop pandering to corporations whose only interest is saving a couple of bucks and not concerned about human safety.

Seems like an easy fix to guard against injury.

That's a stupid question when hundreds and over the years thousands of Americans and visitors are killed when there has been a simple and cheap fix to this killer.

Shame on the lobbyists and gov't for taking bribes over lives.

This is just inexcusable. Human safety MUST always come first, no matter what, on our roads/bridges!

Because Family Lives Matter!

I didn't even know the side guards exist but since they do it should be illegal for trucks be on the road without them!

I personally know individuals who have lost their lives or the lives of loved ones due the lack of rear and side guards on tractor trailer trucks which is completely preventable. If it really saves lives it is a good safety measure. ...both pedestrians and drivers need to be more careful though.

If there is a fix to save lives we need to implement it. Why is the US always last when it comes to regulations that protect its citizens? That is a story worth pursuing.

It will save lives

My friends daughters were killed in a semi trailer crash

Side and rear guards, please. My cousins were killed this way on their honeymoon having just left their wedding ceremony.

Side Guards NOW! Side Guards NOW! Side Guards NOW!

Side impact guards added to trucks WILL SAVE MANY LIVES!!! This is very similar to the accident my husband, Robert, and I had in 1972 when we were on our way home.

There continue to be too many unnecessary deaths caused by this, and it is a correctable problem.

This could happen to anyone. It could happen to your family members. It is important that the trucks on the highway are equipped with as many safety precautions as possible.

This is really common sense. Not only will this save lives, it will also likely improve fuel efficiency for the trucks.

To save 200 or more lives a year!

To save more lives.

When I was 12 a school mate was killed...decapitated...along with her very pregnant mother and 8 year old sister, in an accident where their car went under a truck. I'm still in shock.

Yes. Save lives

Accidents happen.

Even China mandates these. Are we going to let ourselves fall behind?

it would save lives

No one should have to suffer the loss of a loved one because industries want to save money.

This would help save many lives and reduce the trauma experienced both by the truck driver and car passengers who survive the crashes. Less truck drivers on the road.

Trucks are the most dangerous vehicles on the road, they out weigh most cars 8 to 1.

Two of my friends died like this, twenty years ago. Still no side guards on any trucks I have seen on the interstate. This should be mandatory. It can be done.

Lives can be saved

The Side Guards can help save lives. The truck side underride crashes are horrific. Whatever we can do to prevent these type of crashes should be our nation's highest priority.

Thank you.

Because everyone's life matters. Stop the donations to politicians and use that money to pay to install side guards.

Highway safety and security of vehicle is paramount.

I saw the report that Ronan Farrow did on Today Show and was outraged that the side guards have not been mandated! Money/lobbyist talk.

It is stupid that cash is the only reason that these guards are not in place. A few pennies in higher prices are worth a life. Congress shouldn't be able to be on a commission.

It makes sense and would create jobs.

Let's save lives and add side guards to trucks.

Makes sense. So make it a law.

More cars that can fit under trucks yield more probability of accidents - possible fatal.

So we have less possible fatal crashes in underride accidents.

We need to make our roads safer, I have two children and don't want to lose them to something preventable. Take action congress!

Absolutely!!!

Because they should. they make us wear seat belts and no text and drink and drive. So sideguards is a logical step towards road safety.

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

I drive a long stretch of highway in MD every day with plenty of cars and rigs driving unsafely. Accidents are accidental, I don't understand why we wouldn't want to p

It's important because I have kids who drive on highways and tractor trailers are very reckless. They make me nervous.

My dad, Richard Yancoskie, died January 28th 2015 in an underride accident, although the driver was ultimately at fault side guards would have saved my dad's life...3

No brainer! A simple way to save lives.

IT'S CALLED " INSURANCE FRAUD " THEY THINK THEIR GOING TO GET A " NEW VEHICLE FROM THE TRUCKING COMPANY " !

A truck pulled out across a highway And my car ended up underneath it in 2004. I am luck to be alive! The impact knocked me side ways and I was saved from being them.

Any future cases should give automatic penalties to the companies that do not have them!

I know people who have been killed in this type of accident.

My husband was killed in 2015 by a trucker who crossed a median and hit him head on, but adequate side & back guards on trucks seems like an EASY fix to help save

Because my best friend died from an impact with the side of a truck making an illegal U Turn on a hill.

Had a friend that son was killed due this type of accident.

If side guards had been mandatory my husbands best friend would still be alive.

It saves lives!!!!

My boyfriend, Michael Higginbotham, was killed in a side underride crash on November 18, 2014 in Memphis, TN. He would be here today if these side guards had be

My son Micheal was killed 11/18/14 in a side under ride crash in Memphis, TN. The truck made an illegal u turn at the bottom of a hill. If the trailer was fitted with side

Other countries have already implemented this change. Furthermore, you see SOME trailers on the road that already have this feature. Tractor trailers are dangerous

Our friends son was killed in a horrific accident with an 18 wheeler. His car ran underneath of the truck.

These would prevent fatalities, an estimated 200/year. This is a known and preventable tragedy. Is the government here to protect the people or the trucking industry

90 road deaths every day in the United States is unacceptable. We the people, and all stakeholders, can use common sense technology to prevent the road carnage cr

Because it will save lives! I know the Karth family, and I know the heartbreak and devastation they have endured in losing their two beautiful daughters - this is a man

Everyone, listen, this is a simple fix; it works and yes, it costs money to do it but I am asked (forced by law) to make my business safer at my cost. Yes, that cost is pass

I have seen these accidents before, one just occurred recently in dfw. I am an engineer and it looks like simple fix to save lives

I have witnessed the pain it caused a family that lost their children.

It will save lives !

It's a simple change that can help prevent unnecessary death and injury.

It's time for NHTSA to mandate side guards and for the trucking industry to start installing them. Take action! ..Pres. Trump, Sen Thune, and Trucking Indutsry.

My brother was killed by going under the side of a truck

No more precious lives should be lost to something that is so preventable

The method needed to avoid these kind of calamities is relatively simple and should not be a huge burden on the trucking industry which obviously needs to make a profit. They should be required to have side rails to save lives.

This is important this could save one of your loved ones life or even your own life.

To help prevent tragic deaths! Truckers sometimes fall asleep after being overworked and any safety precaution could help so more aren't tragically killed

To prevent preventable deaths

Two people I loved would have hopefully survived that fatal car wreck..

Vital preventative measure to Save lives

Because i believe that some lives can be saved.

If it is in our power to have a solution but not to fix it shame on everyone!

It's simple, inexpensive, and saves lives. Duh!

Lives are at stake!

Side-underride crashes are a completely preventable problem that kills 200 Americans every year. It is inexcusable that congress and the NHTSA are not taking action

So simple a thing to save lives!

These types of death are preventable!! Big Trucking needs to stop getting in the way of common sense safety.

This is action will save hundreds of lives.

To save lives and reduce severity of injuries. Side guards would add to the structural strength and lower center of gravity of the trailer

We support you..but will you support us? Since 1975 Over 24,510 and counting....and since 1988 over 1,000,000 injured by people who can tow homemade trailers...

Anything and everything should be done to protect motorists.

Because it would save lives...legislators' opinions would change if they had a loved one killed in an accident because a truck didn't have side guards.

Companies think in terms of dollars while individuals think in terms of lives. Even company execs think in terms of lives. But only laws or powerful individuals can force change

It's important to save innocent lives. We're willing to pay a little bit more for the cost.

Lets protect are people by adding safety features that can save lifes

Life matters to me. What a novel idea for leaders of the trucking industry and corporations. Heartless bastards

Requiring side curtains will save lives and save fuel due to streamlining. The argument that it is not technically possible is a red herring serving the trucking industries

The use of side Guards are a safety issue that the Federal Government should order to the laws about tractors and trailers --ASAP !! Safety first !!!

The value of the lives which will be saved is far more than the cost of side guards - even if one only looks exclusively at the economic costs and benefits.

We have had multiple close calls with these big rigs that drive like they're the only ones on the road. My sister miraculously survived an underside crash when big rig side

Why not provide safety against such dangerous accidents?

I was in a car accident with a 18 wheeler back in January of 1997. I survived the crash, but my car was a total loss!

Three strong stanchions per side supporting a reinforced fuel saving fairing would suffice,

Deadly side under-ride crashes are preventable. Mandate side guards!

My husband is in the trucking industry, driving for a living. I would hate to see his life suffer or our lives suffer because of this negligence.

Safety for my family

There have been enough deaths to warrant action.

To save lives and minimize serious injuries from highway accidents involving truck underrides.

These accidents. Please help protect us!

Use many times before with vehicular safety features like seat belts, air bags, emission controls, etc. Industry will not comply voluntarily in matters af

ercarriage of trailers and knowing "There but for the grace of God go I." I witnessed the horrific results of such an accident not far out from Detroit a

ple, not the trucking industry. We are watching you.

Why it always haunts me the vision I had that day of my daughter & I being killed because of the stupidity of that 1 semi driver! This law needs to be p:

y safety.

Requirement in place to save lives why can't the USA? It's all about money going into the wrong pockets. This is a no brainer....lets fix this!

cles to be as safe as possible. If trucking companies would get on board with this program maybe insurance carriers would offer a rate reduction for

ie driver's side of our car received the majority of the impact. That side of our car was partially under the flat bed truck before it was ejected during t

rn is getting to their destination as quickly as possible. Sadly, some without the concerns of others on the highway. This one protection could save liv

ed several government agencies about the importance of implementing side guard rails but have yet to be successful....please feel free to contact m

enefit.

· with their routes and are well trained. She was driving the same route she drove every day for many many years. If rigs were required to have these

Why do you think that trucks should be required to have side guards?

Because it could save lives. Plain and simple.

Greetings from Human Rights Sanrakshan Sansthaa,

The Human Rights Sanrakshan Sansthaa is a committed and dedicated group, We strive to work towards ensuring the Human Rights of common man. We are also proud

Don't you think it's long overdue? Don't you think it's worth saving lives?

For gas economy, cars will continue to get smaller, and must be protected from big vehicles.

I travel monthly on a highway that is heavily trafficked by semi trucks and I've seen the dangers, particularly during our monsoon and dust storms. This is a simple fix that

It's a no-brainer common sense issue. More lives would have been saved and will be saved if all trucks are required to have them. Let's get it done before another 200

Seems to me to be common sense, the larger vehicle will always win, protection needed.

To prevent unnecessary deaths.

!!!!!!!

A close friend passed away from an accident vs a big rig

As a disabled veteran of 3 foreign wars, I find it troubling that something so simple would have saved my 24 year old brother's life. What's worse is that it's only not passed

Because it would prevent small vehicles from going underneath and being crushed. This is such a no-brainer.

Enact NESARA now!

I have been trained in motor vehicle safety by my government employers, as well as having been trained & licensed as an auto mechanic in CA thru De Anza College. A

If they could save even one life they are needed. A very good friend lost his life this way. There is no question that these should be installed on all trucks.

It can save lives by passenger in vehicle not hitting head on

it's a simple fix that can save lives

My brother in law died in an accident like this. It's personal.

My brother in law was killed last year when his SUV went under a tractor trailer.

My friend died from this exact accident

My friend died on this type of accident

My gut feeling is that the transportation industry has spent more on lobbyists than trying to address this problem.

My sons are new drivers and I lose sleep over worrying about their safety while driving on our highways!!

One of my co-workers was killed by tractor trailer because he was pinned underneath the trailer

Overdue

People like my nephew needed have died if the trucks had side guards. Let us follow the lead and wisdom of Europe on this

Racing any life is important

Save lives from going under trucks.. Europe has already learned this lesson... what is your excuse US government people? Use your \$\$\$ and do it now!

Side guards could possibly save lives.

SOUNDS LIKE A GOOD IDEA. SPEND SOME \$\$\$\$ ANS SAVE SOME LIVES.

The fix is trivially easy to implement, and the added cost if required would be minuscule. A simple equation: cost = way less than benefits of saving lives.

This may have saved a friends life.

THIS SENIOR CITIZEN SAW A WOMAN GET HER HEAD CUT OFF - IT ROLLED DOWN THE STREET IN FRONT OF ALL OF OUR HORRIFIED EYES.

SEEMS LIKE A RELATIVELY EASY FIX TO ME!

We need to minimize highway deaths just like we did by enacting seat belt laws

Having driven the interstate between Chicago and Detroit for many a year where truck traffic is very intense, it is frightening to be boxed in on all sides by tractor/trailer

If we can save one life I believe it's worth a try. As a passenger of said car, I have no control over what's happening behind the wheel(s), but I'd like to know there are

Maybe we should just get the idiots driving cars to learn how to drive and pay attention.

Safety of the public. Every life matters. Make the change, make a difference.

simple safety feature that will save lives

Tragedy that can be prevented should be. It is not difficult or expensive.

Driving on the Interstates alongside a truck and seeing the gaping hole of the truck next to my car scares the hell out of me.

It's a safety issue. People's lives are worth more than any issue the trucking industry raises.

Why wouldn't it be.

Cars stand no chance with semis. If there is a way to lessen the number of fatalities when it comes to car versus semi accidents then it's obvious we should act.

I have a friend who lost her husband in this type of accident. She and the new born baby barely survived.

I lost my beautiful daughter to a side underride in 2004 - totally preventable with trailer side guard protection.

If deaths can be prevented, why aren't you acting?

It is salient that this protection will save lives. It is also salient that the trucking industry contributes millions to politicians so they can save money on truck modifications

It would not harm vehicles to have all the safety measures possible. And it will save LIFE! :-)

life.....should we say anymore

My son Jasen was killed in an underride Crash on 14 Oct 1993.

Safety should be common sense and important to everyone. Especially when money thrown at congress keeps good work from being done.

These are senseless deaths being sacrificed so the trucking industry can make more money ie: heavier trailers = lighter loads, it's all about the dollar, they could care less

This must be enacted in order to save lives!!

This should be a no brainer. There can be no cost equivalent to saving the life of even a single person.

We have them for the rear--why not the sides?!

Working in insurance litigation I see a lot of these cases. If there is a way to keep people getting killed let's do it. There's a lot more seriously injured.

Just putting side lighting/illumination on tractor/trailers has helped immensely. They are big heavy trucks and trailers.

After watching the NBC Today Show and seeing that Europe has had side guards on their semi trucks since the late eighties, I am outraged the USA has not made them

Automobile safety is a priority. What good are safety measures in a car if they are rendered moot by an underside collision? Europeans demonstrate that the added

Lives will be saved

To save lives

Trucks are vital but dangerous. Anything that can be done to decrease risk and ensure safety of others is an ethical responsibility. Trucking companies would engender

I have two degrees in Driver and Traffic Safety and taught Driver Education for 30 years. I don't care if it "would" or "could" save lives. Anything to help protect us is

My question to you is why would you not vote to mandate side guard rails on the underside of trucks when they have been shown to save lives? What is there to debate

Too many lives lost, far outweighing the costs.

An easy fix that can save lives, and has been a standard in Europe for decades.

Because it is an inherent danger for too many vehicles

For the obvious safety reasons.

I don't want to see any more people die when this danger can be prevented

It seems to be a simple fix to save lives; Europe already has. Why would we not do; clearly works. Feels like another example of the people we send to Washington, who

Preventing deaths through available and practical means should be a priority for any lawmaker and government agency. With so many deaths not able to be prevented

Safety First!

The many deaths that occur due to underride accidents.

This is a practical solution that is guaranteed to save lives. Let's take highway safety seriously and do the right thing here.

to save lives!!!!

it will stop deaths that are avoidable. transport companies can afford this! if not goods can go by rail!

One would think this would be common sense. Ohhhhh yeah, we're talking about Republicans. Let me put this in language you can follow: This bad. Please fix.

Safety saves lives. It's negligent NOT to do this!!!

Senator Thune needs to get his hand out of the Trucking lobbies pockets, and do his damned job !

This is the right thing to do!

A family friend lost their son from a semi and I would like to prevent these situations for everyone.

My daughter which is 4 years old & I had a semi pull out in front of us from off the side of the shoulder on a roadway to do a "U-turn" & the semi driver obviously didn't

NOWWWW!!!

Our very good friends' 39 year old son was killed in a truck accident in which this technology would have absolutely saved his life!!

I want to keep my family safe!

I'm a driver and I have no desire to be maimed or decapitated. The highways are full of trucks. Sometimes traffic is bad, sometimes weather is bad, sometimes drivers are

It's important to everyone because it saves lives.

Safety of human lives should matter more than the money it will take to install the guards. Senator Thune, however, doesn't seem to mind receiving \$\$\$ from the trucking industry

To save lives.

Too many lives are being lost needlessly to an apathetic industry that is willing to spend more money fighting change than making change.

All of us are at risk; if this is mandatory in Europe, why not here in the USA?

Because I care about the safety of my family and others who regularly drive on roads shared with big trucks.

To SAVE LIVES.

For safety reasons

Human lives should come before corporate profits and political campaign contributions. Nothing will bring back the people who've died in these horrific accidents or be
It will save lives

My 5 year old son was killed in a trucking accident

People are injured and their cars are severely damaged by going under the sides or back of trucks.

Safety first. Always.

This is an easy fix and should be done immediately to save lives!

We need to do whatever is necessary to save lives.

Mr Trump, do at least one decent thing here. You won't make any money but you won't lose any either. A lot of these truckers are white guys after all.

Prevent deaths.

Safety. Cost CANNOT be an impediment when it comes to preventing traffic deaths.

Side guards save lives

They have these in Europe and they are a proven safety measure. It's a no brainer

To prevent injury or death.

Because people's lives will be saved.

If this can stop deaths, why not ?

It is important because it will save lives. My family puts a lot of miles on the road and we want it to be safer for us as well as for others. I cannot imagine being a trucker

You should do it because it is morally the right thing to do. You can because the technology is available.

It is known these side guards save lives.....so use them!! Life is precious and there are a lot of trucks out there.

It's another small but vital change needed to save lives.

Save lives

Two of my nieces lost their lives at age 17 and 13

This is a technology that could save lives and should be mandated.

To save lives and make our highways safer

TRUCKS HAVE REAR GUARDS, WHY NOT SIDE GUARDS . . . for the same defense!

Trucks need safety under ride barriers to prevent senseless deaths. Families should consider our highways to be safe but they are not! We should do everything possible

We once had a couple of large trucks on the road. As a driver of that truck I would have gladly paid for the guards than risk the legal costs related to causing a death. I

DRIVE SAFE!

The fix is easy and the cost negligible in comparison to good tires and maintenance of braking systems. Side curtains can be placed in a way to decrease drag and subs

It's a simple fix to save lives that are lost unnecessarily. The justification to not do it due to costs is the same excuse that Ford used when their Pintos were exploding i

I can see a great benefit to saving lives with side guards.

it should be important to everyone, we are all on the highways

Please make large trucks more safe for others who must share the road with them by mandating side guards.

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

It is sad that more money is spent to fight this than it would cost to just do the right thing.

The result of crashing into the side of an unguarded truck can be devastating because none of the car's safety devices are designed to protect you from this kind of acc

this happened to my friend-the only thing that saved him was the hood got stuck otherwise he would have been decapitated

This is a simple solution that can save thousands of lives!!!

So that lives are saved

Always feared of having an accident with a tractor trailer. I will always remember when Jane Mansfield died tragically and every time I pass a truck I look for those rear

for safety sake please mandate these guards

I am one of the lucky ones.

In a Buffalo suburb, the semi in front of me rotated 90 degrees and was headed north on an east-west Interstate. I barely had time to think of my family, and Jayne M

the car (I was told later) left the ground on impact. Although it happened back in the late 1970s, I often recall that frightening moment when I pass a semi on a highway

I support this petition as a physician and public health advocate.

I'm one of the countless survivors who has lost a deeply loved one to an utterly preventable crash--preventable, that is, had the government not decided that rules, la

the world, or just blow it up, to ensure there will never be an alternative to profits over humanity.

There are ever so many more people inn this country sick to death of "rules and taxes are for little people." We're also sick of having risk, cost and consequences that

top. All that dumping comes in the form of something just like side under-ride guards. The industry has spent a lot of money to keep them away because they can use

with all of you. And you do wonderful tricks for their treats: you've all ensured that side guards STILL aren't on trucks, and have left individual citizens to do the work o

People die when a segment of the population with very outsized influence in govt, and overwhelmingly devastating impacts on other human beings, get away with mu

We're all aware that you're actively ungoverning our nation. We know the constant frustration of getting a back turned on us no matter what we're pleading for. You

We're not done fighting. We're not giving up.

And the safety community will be everywhere the trucking and trucking industries are--to fight them--and you--every step of the way.

In memory of Chuck Novak, 22, and Teri Weaver, 23, killed by a sleeping truck driver doing 70 mph. Three other human beings were killed along with them. And 11 pe

orphans have been created since then.

We want to see a complete change from you--dare I use the dirty word "radical?"

It could save the life of my loved ones and friends!

My whole family drive as do most I fear for their lives, unfortunately I am not a millionaire and so cannot buy a congressman so signing this is the best I can do!

Please do what's right and stop pandering to corporations whose only interest is saving a couple of bucks and not concerned about human safety.

Seems like an easy fix to guard against injury.

That's a stupid question when hundreds and over the years thousands of Americans and visitors are killed when there has been a simple and cheap fix to this killer.

Shame on the lobbyists and gov't for taking bribes over lives.

This is just inexcusable. Human safety MUST always come first, no matter what, on our roads/bridges!

Because Family Lives Matter!

I didn't even know the side guards exist but since they do it should be illegal for trucks be on the road without them!

I personally know individuals who have lost their lives or the lives of loved ones due the lack of rear and side guards on tractor trailer trucks which is completely preventable. If it really saves lives it is a good safety measure. ...both pedestrians and drivers need to be more careful though.

If there is a fix to save lives we need to implement it. Why is the US always last when it comes to regulations that protect its citizens? That is a story worth pursuing.

It will save lives

My friends daughters were killed in a semi trailer crash

Side and rear guards, please. My cousins were killed this way on their honeymoon having just left their wedding ceremony.

Side Guards NOW! Side Guards NOW! Side Guards NOW!

Side impact guards added to trucks WILL SAVE MANY LIVES!!! This is very similar to the accident my husband, Robert, and I had in 1972 when we were on our way home.

There continue to be too many unnecessary deaths caused by this, and it is a correctable problem.

This could happen to anyone. It could happen to your family members. It is important that the trucks on the highway are equipped with as many safety precautions as possible.

This is really common sense. Not only will this save lives, it will also likely improve fuel efficiency for the trucks.

To save 200 or more lives a year!

To save more lives.

When I was 12 a school mate was killed...decapitated...along with her very pregnant mother and 8 year old sister, in an accident where their car went under a truck. I'm still in shock.

Yes. Save lives

Accidents happen.

Even China mandates these. Are we going to let ourselves fall behind?

it would save lives

No one should have to suffer the loss of a loved one because industries want to save money.

This would help save many lives and reduce the trauma experienced both by the truck driver and car passengers who survive the crashes. Less truck drivers on the road.

Trucks are the most dangerous vehicles on the road, they out weigh most cars 8 to 1.

Two of my friends died like this, twenty years ago. Still no side guards on any trucks I have seen on the interstate. This should be mandatory. It can be done.

Lives can be saved

The Side Guards can help save lives. The truck side underride crashes are horrific. Whatever we can do to prevent these type of crashes should be our nation's highest priority.

Thank you.

Because everyone's life matters. Stop the donations to politicians and use that money to pay to install side guards.

Highway safety and security of vehicle is paramount.

I saw the report that Ronan Farrow did on Today Show and was outraged that the side guards have not been mandated! Money/lobbyist talk.

It is stupid that cash is the only reason that these guards are not in place. A few pennies in higher prices are worth a life. Congress shouldn't be able to be on a commission.

It makes sense and would create jobs.

Let's save lives and add side guards to trucks.

Makes sense. So make it a law.

More cars that can fit under trucks yield more probability of accidents - possible fatal.

So we have less possible fatal crashes in underride accidents.

We need to make our roads safer, I have two children and don't want to lose them to something preventable. Take action congress!

Absolutely! !!!

Because they should. they make us wear seat belts and no text and drink and drive. So sideguards is a logical step towards road safety.

END DEADLY TRUCK SIDE UNDERRIDE CRASHES: MANDATE SIDE GUARDS

I drive a long stretch of highway in MD every day with plenty of cars and rigs driving unsafely. Accidents are accidental, I don't understand why we wouldn't want to p

It's important because I have kids who drive on highways and tractor trailers are very reckless. They make me nervous.

My dad, Richard Yancoskie, died January 28th 2015 in an underride accident, although the driver was ultimately at fault side guards would have saved my dad's life...3

No brainer! A simple way to save lives.

IT'S CALLED " INSURANCE FRAUD " THEY THINK THEIR GOING TO GET A " NEW VEHICLE FROM THE TRUCKING COMPANY " !

A truck pulled out across a highway And my car ended up underneath it in 2004. I am luck to be alive! The impact knocked me side ways and I was saved from being them.

Any future cases should give automatic penalties to the companies that do not have them!

I know people who have been killed in this type of accident.

My husband was killed in 2015 by a trucker who crossed a median and hit him head on, but adequate side & back guards on trucks seems like an EASY fix to help save

Because my best friend died from an impact with the side of a truck making an illegal U Turn on a hill.

Had a friend that son was killed due this type of accident.

If side guards had been mandatory my husbands best friend would still be alive.

It saves lives!!!!

My boyfriend, Michael Higginbotham, was killed in a side underride crash on November 18, 2014 in Memphis, TN. He would be here today if these side guards had be

My son Micheal was killed 11/18/14 in a side under ride crash in Memphis, TN. The truck made an illegal u turn at the bottom of a hill. If the trailer was fitted with side

Other countries have already implemented this change. Furthermore, you see SOME trailers on the road that already have this feature. Tractor trailers are dangerous

Our friends son was killed in a horrific accident with an 18 wheeler. His car ran underneath of the truck.

These would prevent fatalities, an estimated 200/year. This is a known and preventable tragedy. Is the government here to protect the people or the trucking industry

90 road deaths every day in the United States is unacceptable. We the people, and all stakeholders, can use common sense technology to prevent the road carnage cr

Because it will save lives! I know the Karth family, and I know the heartbreak and devastation they have endured in losing their two beautiful daughters - this is a man

Everyone, listen, this is a simple fix; it works and yes, it costs money to do it but I am asked (forced by law) to make my business safer at my cost. Yes, that cost is pass

I have seen these accidents before, one just occurred recently in dfw. I am an engineer and it looks like simple fix to save lives

I have witnessed the pain it caused a family that lost their children.

It will save lives !

It's a simple change that can help prevent unnecessary death and injury.

It's time for NHTSA to mandate side guards and for the trucking industry to start installing them. Take action! ..Pres. Trump, Sen Thune, and Trucking Indutsry.

My brother was killed by going under the side of a truck

No more precious lives should be lost to something that is so preventable

The method needed to avoid these kind of calamities is relatively simple and should not be a huge burden on the trucking industry which obviously needs to make a profit. They should be required to have side rails to save lives.

This is important this could save one of your loved ones life or even your own life.

To help prevent tragic deaths! Truckers sometimes fall asleep after being overworked and any safety precaution could help so more aren't tragically killed

To prevent preventable deaths

Two people I loved would have hopefully survived that fatal car wreck..

Vital preventative measure to Save lives

Because i believe that some lives can be saved.

If it is in our power to have a solution but not to fix it shame on everyone!

It's simple, inexpensive, and saves lives. Duh!

Lives are at stake!

Side-underride crashes are a completely preventable problem that kills 200 Americans every year. It is inexcusable that congress and the NHTSA are not taking action

So simple a thing to save lives!

These types of death are preventable!! Big Trucking needs to stop getting in the way of common sense safety.

This is action will save hundreds of lives.

To save lives and reduce severity of injuries. Side guards would add to the structural strength and lower center of gravity of the trailer

We support you..but will you support us? Since 1975 Over 24,510 and counting....and since 1988 over 1,000,000 injured by people who can tow homemade trailers...

Anything and everything should be done to protect motorists.

Because it would save lives...legislators' opinions would change if they had a loved one killed in an accident because a truck didn't have side guards.

Companies think in terms of dollars while individuals think in terms of lives. Even company execs think in terms of lives. But only laws or powerful individuals can force change

It's important to save innocent lives. We're willing to pay a little bit more for the cost.

Lets protect are people by adding safety features that can save lifes

Life matters to me. What a novel idea for leaders of the trucking industry and corporations. Heartless bastards

Requiring side curtains will save lives and save fuel due to streamlining. The argument that it is not technically possible is a red herring serving the trucking industries

The use of side Guards are a safety issue that the Federal Government should order to the laws about tractors and trailers --ASAP !! Safety first !!!

The value of the lives which will be saved is far more than the cost of side guards - even if one only looks exclusively at the economic costs and benefits.

We have had multiple close calls with these big rigs that drive like they're the only ones on the road. My sister miraculously survived an underside crash when big rig side

Why not provide safety against such dangerous accidents?

I was in a car accident with a 18 wheeler back in January of 1997. I survived the crash, but my car was a total loss!

Three strong stanchions per side supporting a reinforced fuel saving fairing would suffice,

Deadly side under-ride crashes are preventable. Mandate side guards!

My husband is in the trucking industry, driving for a living. I would hate to see his life suffer or our lives suffer because of this negligence.

Safety for my family

There have been enough deaths to warrant action.

To save lives and minimize serious injuries from highway accidents involving truck underrides.

These accidents. Please help protect us!

Use many times before with vehicular safety features like seat belts, air bags, emission controls, etc. Industry will not comply voluntarily in matters af

ercarriage of trailers and knowing "There but for the grace of God go I." I witnessed the horrific results of such an accident not far out from Detroit a

ple, not the trucking industry. We are watching you.

Why it always haunts me the vision I had that day of my daughter & I being killed because of the stupidity of that 1 semi driver! This law needs to be p:

y safety.

Requirement in place to save lives why can't the USA? It's all about money going into the wrong pockets. This is a no brainer....lets fix this!

cles to be as safe as possible. If trucking companies would get on board with this program maybe insurance carriers would offer a rate reduction for
