With its new, robust rear underride guard, Stoughton is making the roads safer for everyone. No one knows that better than accident survivor Terry Rivet and his passenger Mark Robinson. "Early morning on March 2, we found our car headed toward the rear corner of a tractor-trailer that had slid and jack knifed on a snowy, slippery I-90. But thankfully, the rear underride guard on the Stoughton® trailer prevented our car from sliding underneath the trailer."

Stoughton's guard increases the ability to resist compartmental intrusion of a car when the location of impact is at the rear corners. And, it's standard on new Stoughton dry van trailers – with no added cost or weight.
