

Hundreds of people die every year when pedestrians, cyclists, motorcyclists, and passenger vehicles go underneath trucks. Over 4,000 have died during the past 19 years since the last underride regulation was issued in 1998. Families of victims and safety advocates are calling for an end to preventable truck underride tragedies.

It can happen to anyone -- even if their car has a 5-Star Crash Rating. It can happen anywhere. It happened to 17-year-old AnnaLeah and 13-year-old Mary Karth when their car went under the rear of a semi-trailer in Georgia on May 4, 2013. And it happened to 26-year-old Roya Sadigh when her car went under the side of a truck in Indiana on November 24, 2004.

U.S. regulators have debated for decades about how to stop the tragedy of underride deaths -- including, since 1969, the possibility of requiring underride protection to be added to the sides of large trucks. But they have not done so, even though engineers have already found ways to solve this problem.

It's time for Congress to mandate that the National Highway Traffic Safety Administration update underride regulations, and for the trucking industry to install effective underride protection. The Stop Underrides Act of 2017 -- introduced by Senator Gillibrand (D-NY), Senator Rubio (R-FL), and Congressman Cohen (D-TN) on December 12th -- will allow creative engineers to put effective underride protections on every truck, and help end preventable underride tragedies.

Please co-sponsor this life-saving legislation. You have the power to make the roads safer.

Candie	Copeland	Brookhaven	MS	UNITED STATES	As I truck driver I support this but I think that they need to make them better and easier for drivers to still see under the trailer. Some of them make it really hard to see under. Maybe clear or something. We still have to inspect the area under the trailer.
Rhonda	Smith	Richton	MS	UNITED STATES	Because they have no respect for others on the road too many people are killed and bullied by semi drivers
Donna	Mathis	Pontotoc	MS	UNITED STATES	Cause I have a lot of truckers on my Hwy that I live on and they go way above the speed limits. And I have a lot that rides the tail of my truck. They know they are carrying a heavy load and it will take a awhile to stop so I think that should have a lot further space away from small vehicles compare to them. And I have had a lot of time where they will pass another vehicle and almost ran me into a bridge or completely off the road. Some truckers have no respect for other motorist lives on the road

Constance	Welch	Greenwood Springs	MS	UNITED STATES	I had a friend die and burnt up in this kind of crash 2 years ago
Tammie	Boyd	Tremont	MS	UNITED STATES	I think some are preventable. But I have seen cars cut diesel trucks off and the driver of the car be texting.
Jamie	Wilkerson	Gulfport	MS	UNITED STATES	If a solution has already been engineered that can potentially save life then why aren't we already there. I drive the interstate every day and that is a fear I have. I stay back and away from 18 wheelers as much as possible. But sometimes they just come over in front of you and then end up having to hit their brakes. There is no reason not to pass updating regulations.
