I have been an advocate for the prevention of side underride crashes for several years. My wife and I have made several trips to DC visiting congressional offices to help garner support for The Stop Underrides Act. It has been a frustrating endeavor to say the least. One would think that our elected officials would honor their oath of office to protect their constituents if it is within their power to do so. Unfortunately very few have elected to stand against the trucking industry and their lobbyists in order to save countless lives from underride crashes. Stop the killing and mandate underride protection now.
