

SAVE THE DATE

Raleigh Underride Crash Test Event

We are looking forward to another crash test event to conduct research & development which will advance underride protection engineering solutions. In order to protect that process while at the same time raising awareness and encouraging collaborative discussions, we will be asking participants and spectators to sign a Non-Disclosure Agreement regarding usage of photos and videos which record the day's events.

In addition, although we make every effort to make this a safe event, we will be requiring participants and spectators to sign a waiver of liability.

Further details, including the crash test docket, will be available at a later date.

Also, look for announcement of a follow-up Zoom Underride Roundtable Discussion!

September 13, 2024, All Day (TBA)

**North Carolina State Highway Patrol
Training Facility
380 East Tryon Road,
Raleigh, NC 27603**
