

Instructions for Searching Certified Mail Project Folders

“Please Stop Preventable Underride Injury and Death”

(mailed to 200 carriers in September 2020)

1. The [Certified Letters to Trucking Companies 2020 Folder](#) contains three folders: Certified Letters to 200 Carriers in 2020; Certified Mail Receipts; and Delivery Receipts.
2. To search for a carrier/trucking company, you can open the Mailing List which is at the bottom of the [Certified Letters Folder](#) or simply search the folder which is organized alphabetically.
3. Once you have found a trucking company, you can then search for its Certified Mail Receipt in the [Certified Mail Receipt Folder](#). These are organized alphabetically in the folder.
4. You can then search in the [Delivery Receipts Folder](#) for the company’s Delivery Receipt with signature which USPS posted online after the Certified Letter was delivered to the address on the envelope. These are organized alphabetically in the folder.
5. There is also a document which lists the letters which USPS was unable to deliver as far as I know (for whatever reason). This document, *Undelivered Certified Carrier Letters*, can be found at the bottom of the Certified Letters Folder.
6. Please note that there were additional letters mailed to trucking companies/carriers and trailer manufacturers. Certified letters were mailed in 2024. Non-certified letters were mailed in 2014, 2016, 2017, 2018, and 2019. These letters can be found in another folder titled, [Trucking Company Letters](#).
